### 1. Nature of Operations

Norvista Capital Corporation ("Norvista" or the "Company") operates as a publicly traded resource investment company focussed on investment opportunities in the junior resource sector. Currently, the Company actively manages a portfolio of three core investee companies providing Norvista with precious and base metal pre-production exposure as well as pre-production exposure to the US agricultural sector. The Company is a publicly listed company that amalgamated under the Canada Business Corporations Act on June 4, 2014. The Company's shares are listed on the TSX Venture Exchange under the symbol "NVV". The Company's head office is located at 141 Adelaide St. W., Suite 1660, Toronto, Ontario, M5H 3L5.

Effective September 30, 2019, Norvista completed an internal reorganization with its wholly-owned subsidiary, Akuna Minerals Inc. ("Akuna"), pursuant to which Norvista amalgamated with Akuna under the *Business Corporations Act* (Ontario) to continue as Norvista. As a result, from October 1, 2019 onwards, Norvista had no subsidiaries included in its operations.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration the outbreak and its effects on the Company's business or ability to raise funds.

### 2. Significant Accounting Policies

#### Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS issued and outstanding as of May 27, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2019, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed consolidated interim financial statements.

## 2. Significant Accounting Policies (continued)

### New accounting standard adopted

Amendments to IAS 1 - Presentation of financial statements ("IAS 1") and IAS 8 - Accounting policies, changes in accounting estimates and errors ("IAS 8")

The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. The concept of 'obscuring' material information with immaterial information has been included as part of the new definition.

The threshold for materiality influencing users has been changed from 'could influence' to 'could reasonably be expected to influence'.

The definition of material in IAS 8 has been replaced by a reference to the definition of material in IAS 1. In addition, the IASB amended other Standards and the Conceptual Framework that contain a definition of material or refer to the term 'material' to ensure consistency.

The Company adopted the amendments to IAS 1 effective January 1, 2020, which did not have a material impact on the Company's unaudited condensed consolidated interim financial statements.

### Recent accounting pronouncements

Certain new accounting standards and interpretations have been published that are not mandatory for the current period and have not been early adopted. These standards are not expected to have a material impact on the Company in the current and future reporting periods.

### 5. Restricted Cash

The Company has a corporate credit card with a major financial institution with an aggregate credit limit of \$25,000. As at March 31, 2020, the financial institution holds \$25,000 in a Guaranteed Investment Certificate (December 31, 2019 - \$25,000) as collateral on the credit card amount as long as the credit card is active. The restricted cash amount would change if there was any change in the credit limit on the card.

### 6. Norvista Capital I Limited Partnership

On March 14, 2016, a partnership was formed under the name of Norvista Capital I Limited Partnership (the "LP"). A wholly owned subsidiary of Norvista, Norvista Capital General Partner I Ltd., serves as the "General Partner" of the LP and the Company serves as the manager of the LP and provides investment management services to the LP and is responsible for the day-to-day business of the LP. The LP has been created by the Company to avoid concentrated equity ownership in Norvista while accommodating institutional investors who want to make private equity investments in the junior resource space and have such investments sourced, structured and managed by Norvista. As at March 31, 2020, the General Partner had no partnership units in the LP.

The General Partner is entitled to 0.01% of the net income or net loss of the LP and the LP pays the General Partner an annual management fee equal to 2% of their net asset value, calculated and paid monthly in arrears. During the three months ended March 31, 2020, the General Partner recorded a management fee of \$7,889 (three months ended March 31, 2019 - \$9,739). As at March 31, 2020, the Company had a \$47,959 (December 31, 2019 - \$39,045) management fee receivable from the LP which was included in the amounts receivable in the unaudited condensed interim consolidated statements of financial position as at March 31, 2020.

On or before the dissolution of the LP or implementation of one of the liquidity alternatives, an incentive bonus will be payable by the LP to the General Partner calculated as 15% of the amount by which the increase in the Net Asset Value from formation until dissolution of the LP exceeds a threshold increase of 10% per annum compounded annually, excluding the effect of distributions to the LP, if any. The one-time performance fee, if any, will be paid within 10 calendar days of the dissolution date of the LP.

The Company accounts for its investment in the LP using a nominal value of \$nil as it does not own any partnership units and is only able to recover up to 0.01% of the net income of the LP.

As at March 31, 2020, \$26,400 (December 31, 2019 - \$29,521) is included in accounts payable and accrued liabilities. The balance is unsecured, non-interest bearing and due on demand.

### 14. Capital Disclosure

The Company considers its capital to consist of share capital, contributed surplus, and deficit. The Company's objectives when managing capital are: (a) to allow the Company to respond to changes in economic and/or marketplace conditions by maintaining the Company's ability to purchase new investments; (b) to give shareholders sustained growth in value by increasing shareholders' equity; while (c) taking a conservative approach towards management of financial risks.

The Company's management reviews its capital structure on an on-going basis and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its underlying investments. The Company's current capital is composed of its shareholders' equity and, to-date, has adjusted or maintained its level of capital by: (a) raising capital through equity financings; and (b) realizing proceeds from the disposition of its investments.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than Policy 2.5 of the TSX Venture Exchange which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of March 31, 2020, management believes it is compliant with known requirements. The Company expects that its capital resources will be sufficient to discharge its liabilities as of the current statement of financial position date.

### 15. Fair Value Measurements

#### Fair value of financial instruments

The Company has determined the carrying values of its financial instruments as follows:

- i. The carrying values of cash and cash equivalents, amounts receivable and accounts payable and accrued liabilities approximate their fair values due to the short-term nature of these instruments.
- ii. Public investments and non-public investments are carried at amounts in accordance with the Company's accounting policy as set out in Note 2 to the consolidated financial statements for the years ended December 31, 2019 and 2018.

There were no transfers to or from any level of the fair value hierarchy during the three months ended March 31, 2020.

The following tables illustrate the classification and hierarchy of the Company's financial instruments, measured at fair value in the statements of financial position as at March 31, 2020 and December 31, 2019:

#### As at March 31, 2020 - (Investments, at fair value)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Aggregate Fair Value
Cash equivalents	\$ -	\$ 255,677	\$ -	\$ 255,677
Publicly traded investments	3,719,972	2,995,807	-	6,715,779

## 15. Fair Value Measurements (Continued)

Fair value of financial instruments (continued)

As at December 31, 2019 - (Investments, at fair value)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Aggregate Fair Value
Cash equivalents	\$ -	\$ 453,974	\$ -	\$ 453,974
Publicly traded investments	4,428,341	4,044,358	-	8,472,699
Non-public investments and non-trading warrants	-	-	85,472	85,472

Level 2 hierarchy:

As at March 31, 2020, 12,290,714 Rockcliff shares have been released from escrow. The value of the remaining 54,469,216 shares held under escrow are recorded at Level 2 of the fair value hierarchy.

Level 3 hierarchy:

The following table presents the changes in fair value measurements of financial instruments classified as Level 3. These financial instruments are measured at fair value utilizing non-observable market inputs. The net change in unrealized gains is recognized in the statements of loss.

Investment at fair value	Opening balance at January 1	Purchases	Proceeds on Disposition	Realized gain	Net unrealized gain (loss)	Ending balance
March 31, 2020	\$ 85,472	\$ -	\$ -	\$ -	\$ 7,890	\$ 93,362
December 31, 2019	11,468,275	385,905	(9,839,032)	6,787,057	(8,716,733)	85,472

Within Level 3, the Company includes non-public company investments. The key assumptions used in the valuation of these instruments include (but are not limited to) the value at which a recent financing was done by the investee, company-specific information, trends in general market conditions, the marketability of the shares and subsequent transactions.

The following table presents the fair value, categorized by key valuation techniques and the unobservable inputs used within Level 3 as at:

March 31, 2020

Investment name	Valuation technique	Fair value	Unobservable inputs
Petrowolf	Recent financing approach	\$ 93,362	Transaction price

### 15. Fair Value Measurements (Continued)

Level 3 hierarchy (continued):

December 31, 2019

---

Investment name	Valuation technique	Fair value	Unobservable inputs
Petrowolf	Recent financing approach	\$ 85,472	Transaction price

---

As the valuation of investments for which market quotations are not readily available and are inherently uncertain, the values may fluctuate materially within short periods of time and are based on estimates, and determinations of fair value may differ materially from values that would have resulted if a ready market existed for the investments.

For those investments valued based on a recent financing, management has determined that there are no reasonably possible alternative assumptions that would change the fair value significantly as at March 31, 2020. A 10% decrease (increase) on the fair value of these investments will result in a corresponding decrease (increase) of approximately \$9,000 in the total fair value of the investments. The Company has applied a marketability discount of 0% to its non-public investments valued based on recent financing. Had the Company applied a marketability discount of 5% it would have resulted in a corresponding decrease of approximately \$4,500 in the total fair value of the investments. While this illustrates the overall effect of changing the values of the unobservable inputs by a set percentage, the significance of the impact and the range of reasonably possible alternative assumptions may differ significantly between investments, given their different terms and circumstances.

The sensitivity analysis is intended to reflect the uncertainty inherent in the valuation of these investments under current market conditions, and its results cannot be extrapolated due to non-linear effects that changes in valuation assumptions may have on the fair value of these investments. Furthermore, the analysis does not indicate a probability of such changes occurring and it does not necessarily represent the Company's view of expected future changes in the fair value of these investments. Any management actions that may be taken to mitigate the inherent risks are not reflected in this analysis.

### 16. Subsequent event

On April 27, 2020, the Company granted 800,000 stock options to certain directors, pursuant to the Company's stock option plan. The options vest 1/3 on grant, 1/3 on the six month anniversary date of the grant and 1/3 on the one year anniversary date of the grant. The options are exercisable at \$0.10 and expire on April 26, 2025.
